

Scheme for providing brood for breeding to Gram Panchayats, Panjrapol, Gaushala

Schemes Details

Department	Agriculture, Farmers Welfare
Objective	To improve cattle breeding practices by supplying high-quality breeding stock to local cattle shelters and panchayats.
Purpose	To enhance pulse production by intercropping with sugarcane, improving soil health and farmers' income. The scheme also aims to promote efficient land use and reduce input costs.
Benefits	The NFSM – Intercropping of Pulses with Sugarcane scheme boosts farmers' income by promoting sustainable farming through intercropping, enhancing soil health and land use. It helps reduce input costs and supports agricultural diversification, making farming more resilient.
Eligibility	Only for Gram Panchayat, Panjrapol or Gauseva Samiti
Documents Required	Aadhar Card Bank Passbook Land Ownership Proof Income Certificate Passport-sized Photograph
