

Mobile Shredder Machine (tractor-operated / portable agricultural shredder).

Schemes Details

Department	Agriculture, Farmers Welfare
Objective	To shred and cut crop residues, pruned branches or fodder quickly in the field to save time, labour and avoid residue burning.
Purpose	Help farmers manage crop waste, produce mulch or fodder, improve soil health, and prepare the field for the next crop faster.
Benefits	Reduces residue burning – Saves labour & time – Produces mulch/fodder – Improves soil moisture & fertility – Allows easy movement from farm to farm
Eligibility	Individual farmers, SHGs, FPOs, or cooperatives. Must have valid agricultural land records. Growing crops/horticulture where shredding is needed (cotton, maize, chili, castor, sugarcane, pruning waste). Must have access to a tractor (30–50 HP) if PTO-driven. One machine per beneficiary; area limit applies. Should not have availed subsidy earlier for the same component. Machine must be from approved / certified supplier. Submit Aadhaar, land record, bank details, photo, and invoice. Subject to field verification by department.
Documents Required	Aadhaar, land record, bank passbook copy, photo, machine purchase invoice, and application form at the District Horticulture/Agriculture office.
