

Pipeline Irrigation / Water Supply Scheme.

Schemes Details

Department	Agriculture, Farmers Welfare
Objective	Provide reliable and efficient water supply to agricultural fields using pipelines.
Purpose	Reduce water loss, improve irrigation efficiency, and ensure timely water availability for crops.
Benefits	Saves water compared to traditional canal/furrow methods. Reduces labor and effort in irrigation. Ensures uniform water distribution. Increases crop yield and quality. Minimizes soil erosion and waterlogging.
Eligibility	Farmers with agricultural land, priority to small and marginal farmers; those in water-scarce areas.
Documents Required	adhaar, land record (7/12), bank account details, application form, photographs.
